

TWO WEDDINGS HELD RECENTLY IN RUSHFORD CHURCHES

**Odin Griffin and Ruth Hundorf,
Herman Schulz and Eliza-
beth Bunke Married**

RUSHFORD, Minn.—A recent marriage of interest was that of Odin Griffin to Ruth Hundorf. The bride is the daughter of Mrs. Helen Hundorf, the bridegroom is the son of Mr. and Mrs. George Griffin. The marriage was solemnized at the M. E. parsonage in Caledonia, the officiating clergyman being the pastor of the church, Rev. H. H. Hunt. The bride was attired in a beautiful gown of brown champagne silk, her bouquet being composed of pink roses. Her bridesmaid, Miss Bertha Thiede, wore a very pretty gown of brown tulle and carried an arm bouquet of pink roses. Nels Hundorf, a brother of the bride acted as best man.

Can't Stop Joint-Ease

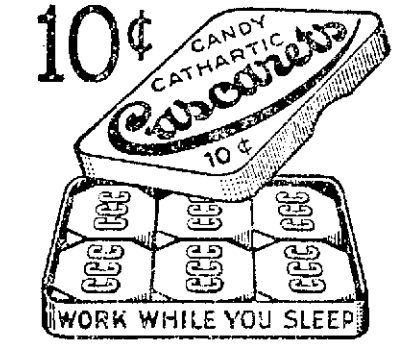

"You can't stop people from buying Joint-Ease for sore throat and cold in chest," writes one of our druggists. "They say it's the best ever."

We know that, of course, but please remember that Joint-Ease is for stiff, swollen, painful joints, whether rheumatic or not, and its tremendous sale for that purpose proves that it is the one joint remedy that gets the most satisfying results.

A tube costs 60 cents at all druggists everywhere. Just rub it on and in a few seconds it disappears completely under the skin, and relief follows instantly.

NORA BAYES MADE HIT IN LONDON

Having made a complete and lasting conquest of her native country, Nora Bayes, the inimitable musical comedy star, who comes with her new revue to the La Crosse Theater on Wednesday October 31 looked for other worlds to conquer. Although many favorite American stars had failed signally in Europe, four days after she arrived in London, the most hardened theater-goers of the British

Capital were singing her praises. It was something new for the blasé Londoners, but they liked it. Before she had finished three songs, London was hers. Originally engaged for a fortnight, the famous American comedienne remained at the same theater twenty-six weeks, and each night the theater was crowded to the street.

COUNTERFEITERS ACTIVE BUDAPEST

—Tempted by the high rate of exchange for American money the counterfeiters in central Europe are concentrating their talents on the dollar. The Budapest police have discovered a wholesale scheme for the distribution of genuine two dollar notes which have been cleverly transformed into two hundred dollar notes. The press that produces this transformation is supposed to be in Warsaw. Counterfeits of this sort have been found in 16 different European towns.

BRITISH and other commentators on the French conditional acceptance of the economic conference suggested by Secretary Hughes, one may think, are needlessly rigid in their criticism of the stipulations insisted upon by the French. The whole idea of the conference involves a complete change of policy by France, and elections are coming on. One may hardly expect politicians to acknowledge failure of their policy openly and completely when that policy is about to be passed upon by the voters. It is much that Poincare consents to the conference at all, and in a world where compromise is essential to progress he should not be too capriciously condemned for endeavoring to save his face. The conference is the first step forward which the world has been able to undertake since Briand fell and Poincare's knock-out policy was inaugurated. In Britain and the United States the run of opinion is that the policy has failed, and that French consent to the conference grows from recognition of that fact in Paris. But in the general interest probably little is to be gained by nailing the French premier to the issue. He will be more likely to be in the frame of mind to make the compromises and sacrifices that may be necessary if he is given latitude to work out his domestic combinations his own way. It is much that, after nearly a year of trying to handle the situation alone, he has agreed even conditionally to listen to the advice of others.

Moreover, much harm has already resulted, to Germany, to France, to Great Britain and to the world at large from differences among the allies which led to the vain hope in Germany that by properly fomenting these dissensions escape from their obligations might ultimately be engineered. In the pursuit of this will-o'-the-wisp the terrifically costly currency inflation was undertaken, and the abortive yet enormously expensive campaign of passive resistance in the Ruhr. Lately Stresemann and his colleagues seem to have come to the conclusion that however bad their resistance made matters for the allies, it was still worse for Germany, and that the better course would be to meet their obligation squarely and do their best to fulfill it. Much that has happened to keep Europe in a ferment might have been avoided at this conclusion had been accepted earlier.

It will help Stresemann to keep his course, and may hasten the final settlement, if the allies keep away from a new quarrel that will foster German optimism about the possibility of exploiting allied differences. Mr. Hughes was taking the straightest path toward the goal of settlement when he emphasized and re-emphasized that this country believes Germany should and must pay for the damage she did in the war. A suspicious, hostile France in the conference may wreck all its possibilities.

Too Much of a Good Thing

DOCTORS notice a steady increase in the number of men who break down between 30 and 50, when they should be in their prime. Breakdown comes three ways—physically, mentally or in the ability to forge ahead and reap the harvest of past effort. Why do so many men break down prematurely? The answer is partly that civilization is constantly becoming more complex with each year bringing more and more demands on the individual's spare time.

Each year it becomes harder for a man to earn a good living for himself and family. He goes through his work-day at high nervous tension, speeded up, giving his last ounce of strength. This is particularly true of men who work with their brains. Says a family doctor: "Father goes home at night, fagged out. What he needs, to keep him fit and help nature recuperate his exhausted cells, is complete relaxation with plenty of fresh air and little noise. But so-called 'social duties' crowd in. Father finds he is expected to dress up and go calling on friends. Or maybe it's to a movie. Or to lodge. Or to a meeting of some committee on which he is serving as Fifth Assistant Deputy Peanut Inspector and so on. Before he realizes, it's around midnight when he yawns into bed, exhausted, with an hour or two less for

sleep than he should have. A man can stand this for a while. But in a matter of years even a strong constitution begins cracking under the strain. Too many social duties. Too much gadding about. Too little leisure time devoted to relaxation and rest. The candle has been kept burning at both ends. Father weakens, falters, fags out prematurely."

Around the Bush

THE French are insisting that it be agreed in advance that the economic conference proposed by the United States shall not reduce the sum of reparations due from Germany. It is the major condition attached to their acceptance. In England it is regarded as gravely endangering the prospect of holding the conference at all. But there are ways to get around such a proposition while still adhering to it, should the economic experts at the conference decide that the present reparations total is really more than Germany can pay. One way around has already been tried, in the conference at which the A, B and C reparations bonds were created and total of reparations fixed. It will be recalled that only A and B bonds were to be issued to the creditor powers, the C bonds being contingent obligations to be issued only if and when the Germans had cleared up the A and B series. Thus Germany remained committed to the total of reparations, but a means was provided for easing the load if it became plain that it was too great. As a matter of fact most economists have held from the beginning that the C bonds would never be issued; that their amount was in fact to be considered as deducted from the German obligation.

Because of His Mother

By H. LOUIS RAYBOLD

Four years John Underwood had been the mainstay of the unpopular girls of Cedarville. Any girl finding herself out of luck at the last moment regarding an invitation to some festivity could depend on him as an escort, provided she had not been forestalled by sister in similar plight. The reason for John's availability was due to the fact that he himself never asked anybody anywhere.

Occasionally he felt called upon for an explanation and could always make you understand delicately but unequivocally, "You see," he would say, "I must think of my mother. While she lives I could not let myself consider the—er—support of—er—a wife. And it's unfair to a girl to monopolize her so that some other man, not thus placed, is kept from courting her."

Very square of him, his audience would feel and if it were young, admire him tremendously. If it were oldish, it envied his mother the possession of such a son.

Cedarville was one of those neighborly little communities which all up nights taking a friendly interest in one another's affairs, and when John's father died it became public property that he had left only the large stone house and a moderate insurance to his wife, and to John his coal, wood and ice business.

It hadn't been for John's dependent mother all Cedarville knew the boy could have married long ago.

"What a sweet little thing, Carrie Watson! Is his mother married?" one evening from her side of the mahogany dining table, "And Paula Scott has such lovely eyes."

"Where?" as Marilyn Deane these days, asked Mrs. Underwood. "She will make some man a splendid wife," "Right!" said John. "I wonder if I may be excused? That 'botany' affair begins early."

It can be seen that John bore his sacrifice quietly. He was not the one to dwell on the girl and their attractions as one who feels himself cheated.

Shortly after this conversation Paula Scott's cousin came to visit her. Paula was much in demand and never needed John's escort for personal use. But she did think of him for Elsie for the tennis club dance, and dated him accordingly.

Elsie fell for John hard. Out on the balcony at intermission he told her gently just how he was situated, and she laid a soft hand on his sleeve and turned up at him two large orbs brimming with sympathy. He was thoughtful in his attitude, and she thought the more of him for it.

The very next day she had a manufactured errand with Paula's aunt, and that took them to call on Mrs. Underwood. It was the first of a series of friendly visits. Paula had a winning way of absorbing the gems of wisdom possible for an older John. He listened for a time, and then, with a friendly nod, he would say, "I'll be glad to help you."

Meanwhile the other fellow deep into the recesses of Elsie's simple personality. She deduced that she had not meant to be so much interested in Paula. The girl is a dear—just her tastes were quite domestic.

An hour later his mother sat writing to a friend.

"Well, at last I fancy I've driven my son into matrimony. It's an article of wisdom possible for an older John. He listened for a time, and then, with a friendly nod, he would say, 'I'll be glad to help you.'"

And a friendly little daughter-in-law and some day a couple of nice grandchildren will repay me for a few years of my life. The girl is a dear—just her tastes were quite domestic.

At that very moment her son was holding tight in his arms the girl of his mother's choice. He was still in a state of bewilderment and yet quite sure now the situation had come about. Could it be that his John Underwood was shared to be very not her mind?

"John," she said ere evening, "it's not natural for you to sacrifice your life for me. If it wasn't for me you'd marry."

"Probably," said John absently, "but not speaking truthfully what he thought he thought. He had fallen into the trap."

"From now on," continued his mother, "I'm taking myself off your hands. I am bored with doing nothing. I'll be a librarian at our town library. Not that I need to work with what I have. I could manage very well. But now you and Elsie and any girl you fancy are free to live your own lives."

"My Son, here is the reason why SiFo Quad Shingles are so Popular."

- First—They are heavier than other shingles and look like real tile on any roof.
- Second—SiFo Quad Shingles never fade or wear out.
- Third—They are easier to lay because the patent triple re-enforced rib construction automatically lines each row of shingles.
- Fourth—The patent rib strengthens the shingle which holds it in place throughout the life of the building. No curling or flapping.
- Fifth—SiFo Quad Shingles reduce your fire risk to such an extent that insurance on both house and contents will be reduced from 10% to 15%.
- Sixth—SiFo Quad Shingles when once put on last a lifetime, are true colored and never blotchy or streaked.
- Seventh—SiFo Quad Shingles make an old house look new and a new house look like a castle. They can be applied right over the old shingles.
- Eighth—SiFo Quad Shingles are sold only through your local lumber dealer who will be glad to show you samples and quote prices.

CONFERENCES WON'T ENFORCE DRY LAWS ATTITUDE OF BLAINE

Governor Expresses Opposition to Perry Plan for Series of Meetings

PROHIBITION OFFICERS SHOULD STAY ON THE JOB, HE DECLARES

Scores Plan to Camouflage Enforcement Through Conferences

MADISON, Wis.—By the Associated Press.—Governor Blaine's views on the proposal to hold a series of conferences, throughout the state on prohibition enforcement were expressed in a statement issued today by Frank Kuehl, the governor's private secretary. The plan for conferences was a part of the movement for prohibition enforcement proposed by Clark M. Perry, federal prohibition commissioner for Wisconsin.

The governor expressed himself as strongly opposed to conferences and declared that "all officers should stay on their jobs and not camouflage law enforcement through conferences."

Speaking on the conference proposal, the governor said:

"Some of the governors at their conference passed the buck on law enforcement to the president. The president, at his conference, passed the buck to the governors; and I find that all of these conferences have been primarily engaged in the passing of the buck. I have never learned the game and I am too old to be taught such a new trick."

"The local, state and federal governments have specific power conferred upon them by their respective legislative bodies. Having that power, it is the duty of the local, state and federal governments impartially to enforce all laws. That has been, and will continue to be my policy."

"It is admitted that Wisconsin has good law enforcement, and as the federal prohibition director has stated, he has received co-operation from our local and state units of enforcement. Our country as a whole are peaceful and law-abiding citizens."

"All officers should stay on their jobs and not camouflage law enforcement through conferences, as the enforcement of law is not accomplished through meetings and the passing of resolutions. Enforcement is a question of official duty and not of politics."

Perry to Act

MILWAUKEE, Wis.—The first of the conferences of prohibition enforcement officers for more rigid enforcement of laws will be held early this week. Clark M. Perry, federal prohibition director of Wisconsin, stated Sunday night.

Mr. Perry said that Governor Blaine's refusal to call a conference would have no effect on the situation in the state. Following the governor's statement Mr. Perry declared that he would make the initiative himself.

AUTOS IN A SMASH ON STODDARD ROAD; MAN HURLED 30 FT.

Two motorists had miraculous escape from death or serious injury in a collision Sunday at the junction of the Stoddard and Chasaburg roads, in Chippewa county, in front of Hugh Rogers' farm.

William Hainesworth of Stoddard and "Pink" McMullin of Viola, were driving the cars that collided. McMullin was driving a Nash car. The machine was hurled into the air by the Elsen & Phillips' wrecker. Hainesworth's car was nearly demolished. He was hurled out of the car a distance of 30 feet, landing on his feet. He still had a cigaret in his mouth and was holding the steering wheel when he came down to earth. Hainesworth sustained several severe bruises. McMullin also was badly shaken up but did not sustain any serious injury.

A Rio touring car slipped off the muddy side of State road 93 some time Sunday and crashed into a concrete culvert, near Newburg's corners.

ONE ARREST MADE IN HOME-COMING THEFTS AT MADISON

MADISON, Wis.—The first arrest as a result of a series of robberies among students at the Wisconsin-Minnesota football game Saturday, at a local hotel and university organization houses, was made here. Monday Police are holding for investigation a young man whose name was withheld. He is suspected in connection with the looting of several rooms of a local hotel when ten coats, valued at \$1,200 were taken. Several hundred dollars were taken from people in the home coming crowds, police report.

FIRE UNDERMINES OLD MILL ROAD AND AUTO FALLS THROUGH

GREEN BAY, Wis.—Residents in the vicinity of a post hog near here have been puzzled for several weeks at the warping of the hard surface of "The Old Mill Road." In places the road was actually torn, it is claimed.

A driver of a car travelling on the road, suddenly felt the ground break through and his machine sank to the axle in sticky, ashy substance, revealing an underground fire which is consuming the post and still spreading in spite of recent rains.

"The Old Mill Road" for long stretches is hot to the touch and authorities have barred it to traffic. Several rains have fallen since a marsh in the vicinity was set afire, but the fire continues to spread and undermine the road, it is said.

WESTERN RACE REACHES HALF-WAY POINT SATURDAY

Five Teams in Big Ten Conference Remain in Unde-feated Ranks

HAROLD GRANGE, ILLINOIS SOPH, ATTRACTING WIDE ATTENTION

Mini-Chicago Game to Feature Games This Week

CHICAGO, Ill.—The western conference football race this week reached the half-way point with five teams undefeated and with one man attracting more attention and con-sidering more individual in the race than any other individual in the conference.

This player is Harold Grange, Illi-nois sophomore. Grange, part of the time almost unnoticed, has piled up 54 points in the last two games. He is the Illinois' total of 82 points for more than season, or an average of more than two touchdowns a game for each con-ference game. He is a line backer and has been in every game in every conference game and has been in every game in every conference game.

Grange has been in every game in every conference game and has been in every game in every conference game.

TWO SURPRISES FEATURE RESULTS IN EAST SATURDAY

Dartmouth's Win Over Harvard and Carnegie's Victory Over Pittsburgh Spills Dope

NEW YORK.—Two outstanding surprises marked the opening of the last half of the football season Sat-urday—Dartmouth's decisive victory over Harvard and Carnegie Tech's victory over Pittsburgh. Two hundred and twenty thousand spectators witnessed six eastern games.

Coach Jesse Hawley of Dartmouth was the hero of the Green's triumph over the Crimson in twelve games since 1900.

Other feature games were Pennsylv-ania's defeat of Center, 21 to 0; Wil-liams' third successive triumph over Columbia, 10 to 0, and three battles which ended in ties: Penn State and West Virginia, 13 all; Princeton and Navy, 13 all; Rutgers and La-fayette, 6 all.

HANLEY LEADING SIX-DAY BIKE RACE ON MONDAY

CHICAGO, Ill.—After eleven hours of pedaling without any serious mix-ups or spills, Hanley of San Francisco was leading the six-day international bicycle race today but with the ma-jority of the riders closely bunched at one mile.

De Waele and Stockelmeier of Bel-gium, Chardon, France, and Nefati, Senegal, and Lemer, France, and Dur-ick, Senegal, N. J., were a lap be-hind the leaders.

The race started at 9 o'clock last night.

RUSSIAN GOLD FIELDS AWARDED TO AMERICA

MOSCOW.—Prospecting rights in approximately 1,700 square miles of gold and platinum in the Amur basin have been awarded to the far eastern exploitation company headed by Hen-ry T. Hunt of Cincinnati, Ohio. The concession was obtained by Charles H. Smith, former American member of the Chinese Eastern Railway com-mission, who now is in Moscow.

PENN HELD TO THE NEW YORK

NEW YORK.—West Virginia and Penn State, two of the foremost con-ference leaders for 1925 eastern grid-iron laurels battled desperately but inde-cisively Saturday before a crowd of close to 25,000 at the Yankee stadium. The game ended in a 13 to 13 tie.

"COLONELS" LOSE

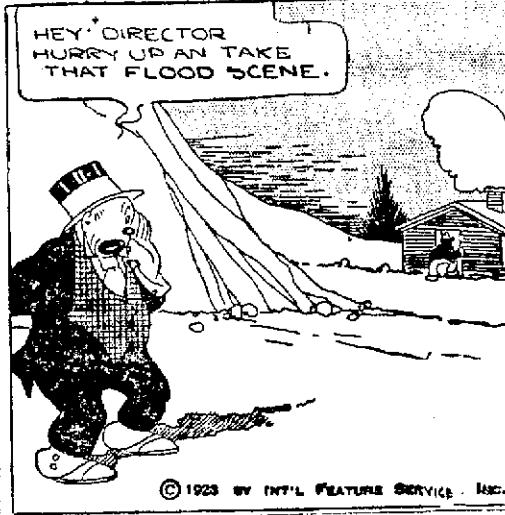

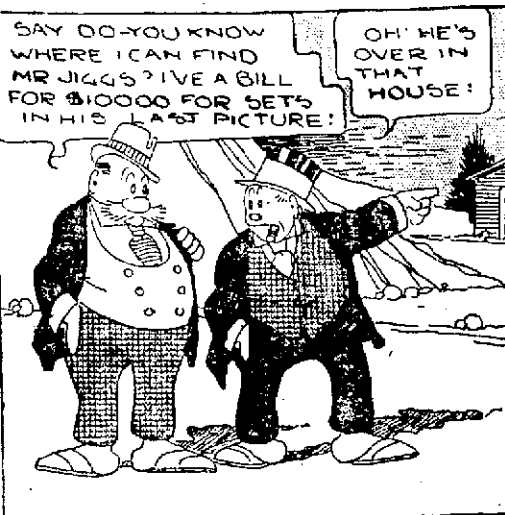

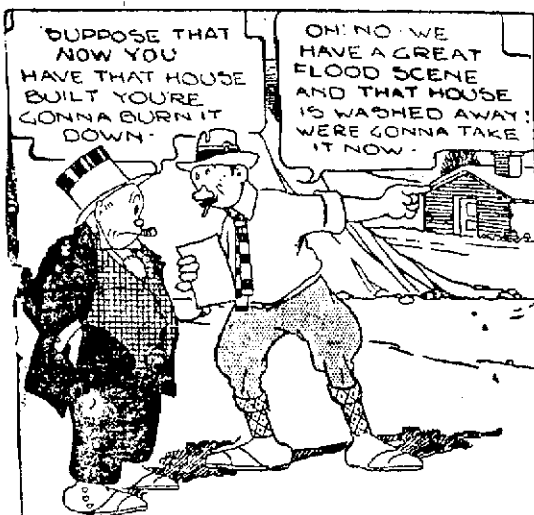

PHILADELPHIA, Pa.—Pennsylv-ania defeated the famous Centre col-lege team, 21 to 0. Forty thousand persons saw the contest. Pennsylv-ania's score was represented by three touchdowns and a field goal.

FIND ALASKA COPPER DEPOSITS

ANCHORAGE, Alaska.—Valuable deposits of copper ore have been located in the Kachemka section, 40 miles from the Alaska railroad. A pack trail to the district has been opened.

BRINGING UP FATHER

COACH FINLEY'S ELEVEN AND ALMOST EMPTY CAN OF WATER ARRIVES BACK FROM SUPERIOR

COACH FINLEY with his five gallon can of water almost empty and his truck load of football men arrived home Saturday night, tired but happy after the week-end they spent at Superior. The team wiped the Superior high school on their feet with a 39 to 0 victory, and got back at the northerners for the defeat that was handed to the Red and Black aggre-gation here last Turkey day.

The five gallon can of water attracted considerable interest at the Twin Ports and many were the individuals that wanted to know the why and wherefore of the can. The brilliant win ought to be answer enough to them, and anyhow La Crosse water is good.

The men arrived in Superior by bus Wednesday evening and were stationed at the Y. M. C. A. Thurs-day. Coach Finley took the fellows on a sight seeing trip through Duluth and the longward drive showing the men the wonderful Superior harbor. Thursday afternoon a whale of a work-out was held.

Friday morning the squad journeyed to Manitowish, a beauty spot, eighteen miles outside of Superior. The game broke at 3 o'clock Friday afternoon. It was one of the coldest days of the season and a penetrat-ing cold wind was blowing directly from the lake. After the victory the La Crosse men were entertained at a banquet tendered by the high school. The Zeta Beta chapter of the Alpha Omega entertained the football men at a dance in the evening.

The team and Coach Finley left by bus early Saturday morning and arrived in St. Paul in time to see the game that Hamline played. The team arrived in La Crosse late Saturday night.

EAU CLAIRE HAS TITLE ASPIRATIONS IN NORMAL CIRCUIT

Victory Over Superior Week Ago Was Third in Suc-cession in Season

EAU CLAIRE, Wis.—The Eau Claire State Normal is looking for-ward to a possible championship. The normal school football squad by the defeat of Superior normal a week ago, 16 to 14, at Superior, continued its winning streak. The victory was the third straight win this season, and normal backers are entertaining high hopes based on the good showing so far.

The normalites had a week off last week, but worked hard with daily practice for what will probably be the decisive game of the season for the local eleven, the tilt here with the strong Stevens Point aggregation, on November 3. If the locals can weather the attacks of the Stevens Point team, they feel confident they can conquer River Falls here on Novem-ber 10. The locals are working to perfect a better defensive game, as well as a more co-ordinated offense, and with McManis' toe working with the same accuracy as it display-ed in the Superior game when he dropped kicked three goals, great things are expected. However, there is an extensive hospital list on the Eau Claire roster which is not any too en-couraging.

JAKE SCHAEFER, JR., TAKES ON WILLIE HOPPE IN MEET

NEW YORK.—Jake Schaefer, Jr., son of the one genius, will strike to regain the championship he lost to Willie Hoppe last year in the third annual tournament of 18-2 bulk line billiard championship which opens Monday night.

WAUKON DEFEATED BY CAMPHIGH. SCORE IS 60 TO 0

PRAIRIE DU CHIEN, Wis.—Cam-phigh high school defeated Waukon Junior college here Saturday by the score of 60 to 0. Captain Scott was the star of the contest for the victors.

In The Sport Mirror

PRACTICALLY all of the Wiscon-sin Homecomers are back home again today with the arrival at 2:30 this morning of the last section of the special train from Madison. Scores of La Crosse people were in Madison for the game, some driving and other go-ing by train.

The biggest majority of La Crosse folks journeyed to Madison in the local yards night. Rossbach, city passenger agent, had more applica-tions than could be filled in the La Crosse car.

It was a standard sleeper, but not many of the sleepers got much sleep. In fact, it was five a. m. before the gang retired, and anyone who at-tempted to roll in before that hour was dragged out, covers and all, to the smoking compartment in the rear.

The La Crosse car hooked up with the Minnesota special on the north side at 3:15. Before the train pulled out of the north side station, Minne-sota students still up, swarmed into the La Crosse car and the party took on a new lease of life.

About this time, the porter with "the capabilities" took the stage. Be-tween he and the Minnesota French student, whose French vocabulary was confined to "Chevrolet Coupe, P. O. B. Detroit," the party was royally entertained.

The train was an hour late arriv-ing in Madison, pulling into the West Side station at 9:30.

The game itself was lacking in thrills, and outside of the punts going into territory beyond the twenty-yard line, the battle was fought out in the middle of the field.

Minnesota's deaf and dumb yell furnished a lot of entertainment for the 35,000 Wisconsin students pulled a unique stunt in the west stand. Students were equipped with Card-inal and White squares of pasteboard, and were so arranged that when held in the air during a yell, formed a per-fect "W" in the colors of the school.

The game did prove sufficiently ex-citing at one point for one Minne-sota student, who let fly of a box of stonoe down over the heads of the thousands below about the time Mar-tineau was trying to get away on an end run.

It was a low murmuring mass that found its way out of the huge sta-dium after the game. The tie score prompted no enthusiasm on the part

COACH RYAN WILL ENDEAVOR TO DEVELOP STRONGER OFFENSE FOR ILLINOIS CLASH SATURDAY

MADISON, Wis.—Development of a stronger offensive is the task which Coach Jack Ryan with his Wis-consin Badger football aggregation, which fought to a scoreless tie on Camp Randall field here Saturday against Minnesota. The Badger team showed a powerful defensive play, in the opinion of followers of the Car-dinals, but failed to make necessary yardage when needed on the offen-sive.

Lacked Punch

Although the Badgers kept the ball in Minnesota territory most of the game, the final punch at critical times was lacking. The local team had three opportunities at goals from field but two went wild and the third was lost when a pass was intercepted by the opposing team.

A week of hard practice is on schedule for the Badgers, in prepara-tion for their third conference tilt against Illinois next week at Urbana. Illinois has two conference victories to her credit, winning from North-western last Saturday and from Iowa the previous week. The Illinois clash will determine whether or not the Wisconsin team will be a contender for conference honors, although the

tie with Minnesota, probably will count against the team in the final ruling.

The team came out of the Minne-sota game with few injuries and none of the first line men are on the hos-pital list. The line-up which started against Minnesota was carried throughout the game and apparently is Coach Ryan's first choice of the squad. Captain Marty Below, Taft and Holmes stood out as the Badgers' most consistent players. The Badgers showed up well at breaking up passes, which were Minnesota's chief method of ground gaining. However, the heavy field is believed to have pre-vented both teams from opening up on the aerial route.

Plan Hard Workouts

The freshman and second teams will be brought into play this week and next to give the varsity the har-diest scrimmages of the season. Coaches will devote every effort to working the team up on the offensive and developing new plays to be used against Illinois. Illinois went through a comparatively easy game with Northwestern Saturday and is expect-ed to be in prime condition for the Badgers this week.

PURPLE CAPTAIN PLAYS BY INTUITION IN SECOND PERIOD

CHICAGO, Ill.—Bill McFadin, captain of Northwestern football team, was knocked senseless early in the second quarter of Saturday's game with the University of Illinois.

WRESTLING CARD

NEW YORK.—Martin Pesdina and Wladek Zhyssko meet in the feature match of a five event wrestling pro-gram here Monday night. To the win-ner will go the opportunity of at-tempting to wrest the championship crowd from Strangler Lewis.

"THE PRINTER'S DEVIL"

At the boyish tricks and pranks that we love so much to see in our own boys are admirably portrayed by Wesley Barry, the young trouble-maker, in his new picture, "The Printer's Devil," which opened for a three days' run Sunday at the Rivoli theatre.

With an admirable supporting cast, including Harry Myers, who played the wealthy young city man thrown upon his own resources; Katherine McGuire, as the beautiful young daughter of a small town baker; George Pierce, her father; and Louis Kutz, Roy Cannon, Mary Halper and Harry Rotenberg, the story reveals how a simple, fun-loving boy, working as a printer's devil on the village newspaper, brings about the happy con-

clusion to a story of petty cheating and intrigue on one side, and honest, open-hearted dealing and love on the other.

CASINO TODAY

"Fighting Bear" is the name Cree Indians who worked in "Pioneer Trails" with Cullen Landis have given to him. The Cree Indians were employed in making of thrilling scenes in the opening of the pictures depicting early life in the days when the west was young.

The Cree Indians were much impressed by the usual athletic prowess of the premier actor who will be seen in this Vitaphone special production at the Casino theatre today. His riding and marksmanship won their admiration.

Alice Calhoun will be seen in the

leading feminine role of Miss Miller. Bertram Grassby plays the part of a cold, deliberate villain. Otis Harlan has a delightful role of itinerant lawyer and philosopher, who readily comes to the aid of the hero in times of need. These are supported by a cast of eminent players.

"WHY WORRY?"

"Why Worry?" is Harold Lloyd's first serious attempt at straight farce. Here are real characters and entirely probable situations exaggerated to a state of absurdity that yet remains within the realm of possibility.

"Why Worry?" is the story of an American youth, accustomed to luxury, who has a flare of adventure in his make-up. He goes to South America and promptly becomes enmeshed in a fierce, fiery and flaming revolution.

Conspicuous among Lloyd's aides in "Why Worry?" are Jobyna Ralston and John Aasen, the La Crosse giant. "Why Worry?" is a riot of fun, and the only thing for you to worry about

is getting into the Majestic theater during its run this week.

STRAND TODAY

"The Spoilers," which will be shown at the Strand theater today for two days, is a stirring picture of Rex Beach's celebrated novel of the historic clash that occurred in the Klondike when crooked politicians tried to rob the miners of their properties. This book was a sensation in its day and when a decade ago Selig made a film of it, that too was a big success. The 1923 "Spoilers," which was produced by Jesse D. Hampton for Goldwyn is declared to be one of the finest and most thrilling photoplays ever made.

There is a remarkable cast of stellar players, headed by the manly Milton Sills, the beautiful Barbara Bedford, and with blond Anna Q. Nilsson as the sympathetic Cherry Malotte. Noah Beery, the powerful villain of many a movie, is said to be at his suave worst in "The Spoilers." Robert Edeson, Mitchell Lewis, Ford Ste-

ling, Rockiffe Fellowes, Robert McKim and Sam De Grasse are some of the other well known players in the cast.

**VAUDEVILLE SHOW
PLEASES SUNDAY
RIVOLI AUDIENCES**

Four spicy vaudeville acts make up the Rivoli offering for the first half of this week, along with the "Freckles" Barry picture "The Printers' Devil." First come "The Two Roses," two dancers of exceptional ability. They present difficult fancy dancing numbers in a very pleasing manner. "The Mail Man," a lively comedy

with a cast of only two, keeps the audience in an uproar. This number brings in many funny lines and some good songs and was very heartily applauded by both audiences on Sunday. A dozen or so tiny canaries put on under the direction of their mistress, one of the most unique performances ever here in a long time. The birds showed remarkable intelligence in carrying out directions without the slightest hesitation or blundering. This number held the vast attention of the audience all the way through. Eddie Simon's Syncopators, com-

sentation of popular musical numbers. The six members gave solo and group numbers which were very well received. The United States is a heavy importer of lawn mower seed. **NEW shipment of Blankets just received and priced from \$1.49 to \$3.59. SPURGEON'S**
